

## Medicare Part D in 2008: a web-based workshop for transplant professionals

This program is an overview of Medicare part D and its impact on solid organ transplant patients and professionals. This program has been accredited for continuing education for pharmacists only.

### Educational Objectives

At the conclusion of the program, participants will be able to:

1. Describe coverage for routine transplant medications under the Medicare benefit
2. Identify a patient's current Medicare drug plan
3. Identify the "best" Medicare Prescription Drug Plan for a patient's medication needs
4. Create an individualized estimate of medication expenses in 2008

### Accreditation

TG Medical Education, LLC is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing education and complies with the criteria for continuing pharmacy education programming. This program provides 1.0 hour (0.1 CEU) of continuing pharmacy education credit (ACPE) with a Universal Program Number of 454-000-08-006-H03-P. The original program release date was May 5, 2008.

### Statement of Credit

Following the successful completion of this course and post-test, participants will receive their Statement of Credit, which is available for printing. TG Medical Education does not mail Statements of Credit for its online content. Prior to completing the online program, please make sure that your computer is hooked-up to a working printer.

### Intended Audience

This educational activity is intended for healthcare professionals who care for organ transplant recipients; however, this program has only been accredited for continuing education for pharmacists.

### Support

This program is supported by an educational grant from Astellas Pharm US. There is no fee for this program.

### Program Faculty

- **Faculty Disclosure Statement:** In accordance with ACPE Criteria for Quality and Interpretive Guidelines, TG Medical Education requires that faculty members disclose any relationship (e.g., shareholder, recipient of research grant, consultant, or member of an advisory committee) that the faculty may have with commercial companies whose products or services may be mentioned in their presentations. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on faculty presentations.
- **Faculty and Disclosure Information:** Lisa McDevitt, PharmD, BCPS, Clinical Specialist, Solid Organ Transplantation, Tufts Medical Center & Assistant Professor, Massachusetts College of Pharmacy and Health Sciences—Boston, Massachusetts
  - *Consultant*
    - Astellas Pharma US
  - *Speaker with Honorarium*
